

Matching Game

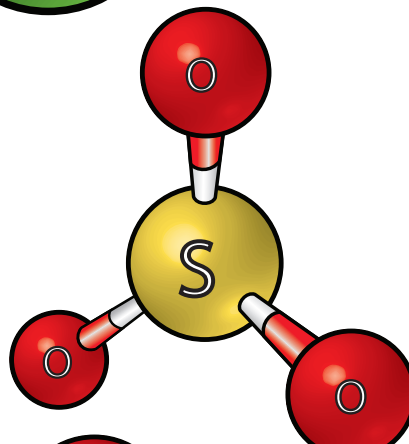

Draw a line from each word to its matching molecule!

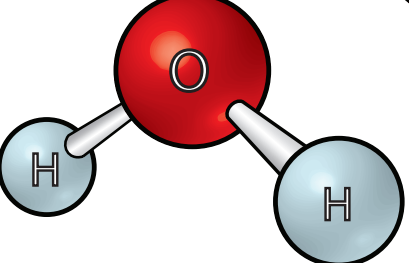

Answer Sheet

1) 

2) 

3) 

4) 

5) 

water

uranium

carbon dioxide

deuterium oxide

sulphur trioxide

The diagram shows five ball-and-stick molecular models on the left, numbered 1) to 5). On the right, five chemical names are listed. Red lines connect each name to its corresponding molecule: 'water' is connected to model 5), 'uranium' to model 3), 'carbon dioxide' to model 2), 'deuterium oxide' to model 1), and 'sulphur trioxide' to model 4).
